

European Bioeconomy Scientific Forum 2023

Moving Towards the Transformation

 6-8th September 2023

 Vienna, Austria

The University of Natural Resources and Life Sciences, Vienna – BOKU as the current chair of the European Bioeconomy University Alliance (EBU), invites all interested parties to the **European Bioeconomy Scientific Forum 2023 – EBSF2023**, which will take place on **6-8th September 2023** in **Vienna, Austria** [1].

Under the theme “Moving towards the transformation”, the objective of this scientific forum is to promote the transformation towards a sustainable bioeconomy. The event will bring together scientists, experts, policymakers, industry representatives, youth and other stakeholders from across Europe to share experiences, discuss challenges, and identify opportunities for advancing the bioeconomy transformation and contributing to the achievement of the United Nations’ Sustainable Development Goals.

During the event, participants will have the opportunity to engage in interactive sessions, expert panel discussions, and networking opportunities. The forum will also provide a platform for exchanging knowledge and best practices, and for building cooperations and partnerships that can help accelerate the transition towards a more sustainable future.

We encourage all stakeholders interested in the bioeconomy to join us for this unique opportunity to exchange knowledge, engage in well-developed networks and contribute to the advancement towards a sustainable bioeconomy. We believe that your participation in the European Bioeconomy Scientific Forum will be invaluable, and we look forward to welcoming you to this exciting event.

For more details, including registration information and a detailed program, please consult our [website](#).

Sincerely,
The Centre for Bioeconomy of BOKU
Chair of the EBU’s Presidency

[1] BOKU aims at organising the event EBSF2023 according to the criteria of the [Austrian Ecolabel for Green Meetings and Green Events](#).
