LANDSCAPE 100

In 2012, we celebrate the centenary of the first professional association of garden architects in Austria. On this occasion, the ILA Institute of Landscape Architecture at BOKU Vienna directs the 4th X-Larch symposium on the profession's past, present, and future.

LANDSCAPE 100 will discuss the impact of landscape history on contemporary work and its potential for future challenges. Lectures and workshops will reflect approaches to landscape design and offer a training experience to practitioners, officials, scholars and students.
