

## Application - portable fire extinguishers

<b>WRONG</b>		<b>CORRECT</b>
	Attack fire in the direction of the wind	
	Extinguish fire from front to back and from bottom to top	
	BUT: extinguish drip fires and flowing fires from the top to the bottom	
	use several fire extinguishers simultaneously – not successively	
	Beware of re-ignition - extinguish embers always with water	
	Do not hang up used fire extinguishers - let them refill beforehand
