With teaching lectures regarding „*Die Rolle des Bodens im Wasserhaushalt von Wäldern*“ and with the following scientific lectures

Wednesday, 6th November 2024
Seminar Room 32, Mendelhaus third floor

08:50–09:50: Priv.-Doz. DI Dr. Eugenio **Díaz-Pinés**: „*Understanding Forest Responses to Global Change: Long-Term Observations Meet Experimentation*“

10:00–11:00: Dr. Tanja **Sanders**: „*From data to action: Advancing our understanding of forest disturbances*“

11:10–12:10: Dr. Carlos **Sierra**: „*Timescales of climate-carbon interactions in forest ecosystems*“

12:20–13:20: DI Dr. Mathias **Mayer**: „*Soil carbon dynamics after forest disturbance: integrating field studies, modelling, and meta-analyses*“

Thursday, 7th November 2024
Seminar Room 12, Mendelhaus first floor

08:50–09:50: Priv.-Doz. Mag. Dr. Mario **Pesendorfer**: „*Linking spatial and temporal variation in site ecology and tree reproduction to advance forest conservation and management*“

10:00–11:00: DI Dr. Alois **Simon**: „*Ashes to Ashes – volcanoes and wildfires shape forest sites in Northern Patagonia*“

11:10–12:10: Mag. Dr. Andreas **Schindlbacher**: „*Soil organic carbon in a warmer world – will forests do us in?*“

12:20–13:20: Univ.-Prof. Dr. William **Keeton**: „*Structure, function, and dynamics of temperate old-growth forests: building the science to inform conservation and restoration*“
