

The Department of Biotechnology, AG: Liposome and Membrane Research is currently seeking for a highly motivated

## Postdoctoral Research Associate (project employment)

Reference code: 113

to join the industrial cooperation of the Department of Biotechnology and Boehringer Ingelheim RCV GmbH & Co KG Biopharmaceuticals.

Extent of employment: 40 Hours per Week  
Duration of employment: 01<sup>st</sup> of November 2016 to 31<sup>st</sup> of October 2019

Gross monthly salary and pay grade in terms of collective agreement for university staff (payable 14 times per year): B1 lit. b, € 3.590,70

### Responsibilities

The scientist will design, evaluate and implement a strategy to further increase the analytical toolbox in support of microbial bioprocess development. Duties and responsibilities will be the planning, performance and supervision of experiments, data analyses and interpretation as well as their presentation at internal and international meetings. Successful analytical strategies will be established and further novel techniques and methods for biopharmaceutical processes will be developed. A further responsibility will be supervision of students, technical personnel and supporting preparation of patents and publications.

### Required skills and qualifications

Successful applicants require a PhD in a relevant field (Biotechnology, Biochemistry, Applied Sciences or Biology) and a proven track record and hands-on experience in analytical technologies and instruments supporting bioprocess development. Further requirements are:

- Practical expertise in analytical techniques applied in biopharmaceutics
- Sound background in protein chemistry

### Desirable skills and qualifications

- High flexibility and willingness to learn, innovative and aim-oriented performance
- Team oriented working style in multi-disciplinary teams
- Experience in the supervision of personnel is an asset
- Excellent communication skills and very good command of English; fluent German is an asset

Applications can be submitted until: 19<sup>th</sup> of October 2016

University of Natural Resources and Life Sciences Vienna seeks to increase the number of its female faculty and staff members. Therefore qualified women are strongly encouraged to apply. In case of equal qualification, female candidates will be given preference unless reasons specific to an individual male candidate tilt the balance in his favour.

Please send your job application to ao.Prof. Karola Vorauer-Uhl, [karola.vorauer-uhl@boku.ac.at](mailto:karola.vorauer-uhl@boku.ac.at)  
(Reference code: 113).

We regret that we cannot reimburse applicants travel and lodging expenses incurred as part of the selection and hiring process.
