

The University of Natural Resources and Life Sciences, Vienna (BOKU)

is inviting applicants for the position as

University Professor
(according to § 99 (4) UG) of

Alpine Systems Engineering

The University of Natural Resources and Life Sciences, Vienna (BOKU), Department of Civil Engineering and Natural Hazards, seeks to appoint a University Professor of Alpine Systems Engineering starting with 1.10.2021.

The position is filled in accordance with § 99(4) Universities Act 2002, as well as the development plan of the University and the agreement with the Federal Ministry of Education, Science and Research. The position is located at the Department of Civil Engineering and Natural Hazards. The appointment will be a six-year (§ 109 UG) employment with the option for an extension after a positive evaluation.

The application for this position requires an employment with the University of Natural Resources and Life Sciences, Vienna, as "Universitätsdozent*in" (in accordance with §94(2) 2., Universities Act 2002, or Associated Professor in accordance with §27 (Uni-KV - Collective Contract).

The University of Natural Resources and Life Sciences, Vienna, the "Alma Mater Viridis", is the University of Sustainability and Life Sciences. It is BOKU's task to make a key contribution to the conservation and protection of resources for future generations through its wide variety of expertise. Combining natural sciences, engineering plus social and economic sciences, its aim is to increase knowledge of the ecologically and economically sustainable use of natural resources. With 11,000 students and 2,800 staff members, BOKU is one of Europe's leading life science universities.

The Department of Civil Engineering and Natural Hazards consists of the institutes "Structural Engineering, Geotechnical Engineering, Applied Geology, Alpine Natural Hazards, Soil Bioengineering and Landscape Construction" and represents with its subject areas core competences of the study program "Kulturtechnik & Wasserwirtschaft". The Department conducts research and teaching in natural and technical sciences.

The applicants are expected to consider and develop models of natural and technical processes within the life cycle of natural systems and technical structures. The research should focus mainly on the interaction between living space, building materials and technical constructions in the alpine environment.

The new §99(4) professorship should connect different research disciplines within the Department of Civil Engineering and Natural Hazards. Colleagues with a broad knowledge of the topic should initiate new ways of holistic teaching and research.

Job specification:

- Affiliation to the University of Natural Resources and Life Sciences, Vienna 1) as "Universitätsdozent*in" i.e. with a definitive employment relationship in accordance with § 170ff BDG or § 55ff VBG (official title: "Außerordentliche*r Universitätsprofessor*in") and 2) Associate Professor in accordance with § 27 (5, 6) Uni-KV.
- Relevant experience and competence in teaching, guidance in scientific work, as well as the supervision of junior scientists (PhD students). The candidate is expected to submit a teaching portfolio.
- Teaching in German and English.
- Excellent publication achievements in the scientific field
- Sound research experience outside BOKU is expected

- Subject-specific research experience of national and international reputation, as well as ability to network.
- Experience in the successful acquisition, execution and management of research projects.
- Cooperation with national and international research institutions and with relevant partners from public services and business.
- Management and interpersonal skills including gender and diversity management skills, communication and team skills and a willingness to participate in public relations.
- Willingness to participate in relevant focus and cooperation programs of the University.
- Willingness to participate in the self-governance of the University of Natural Resources and Life Sciences, Vienna.

For more information about this position, please contact the head of the Department of Civil Engineering and Natural Hazards, Univ.Prof. Dr. Markus Fiebig, markus.fiebig@boku.ac.at

Please send your application in German or English by email to rektorat@boku.ac.at and one hard copy no later than **27th april 2021** (date on postage stamp) to the Rectorate of the University of Natural Resources and Life Sciences, Vienna (BOKU), Gregor-Mendel-Straße 33, 1180 Vienna, Austria.

Please include the following documents with your application:

- CV including details of professional, teaching and research activities (incl. presentation of teaching portfolios – further information is available in German at http://www.boku.ac.at/fileadmin/data/H05000/H17100/Qualifizierungsvereinbarung/Lehrportfolio_-_Leitfaden_zur_Erstellung.pdf).
- List of publications (referenced / not referenced), presentations and projects
- Copies of 5 recent publications that you consider particularly important
- Draft concept for research and teaching; presentation of planned research priorities (max. 4 pages A4)
- Brief explanation of why you believe yourself to be particularly suitable for this position (max. 1 page A4)

By submitting the application, you also agree to the participation of an external recruitment consultant in the selection process.

The University of Natural Resources and Life Sciences, Vienna is seeking to increase the number of its female faculty members and therefore, qualified women are strongly encouraged to apply. Women are given priority when qualifications are equal, except in cases where there are outweighing factors concerning another candidate.

The employment contract is classified as group A1 of the collective contract for university employees. An overpayment of the minimum gross monthly salary of 5.321,70 Euro (14 times per year) is foreseen.
