Peer-to-Peer Law and the Commons

Donnerstag, 28. Juni 2018, 12:00 – 13:30

Guttenberg Haus | Seminarraum SR 03, Erdgeschoß
Feistmantelstraße 4, 1180 Wien

Die Teilnahme ist kostenlos. Um Anmeldung bis zum
25. Juni 2018 wird gebeten: law@boku.ac.at

The computing model of peer-to-peer, a type of architecture in which actions are distributed, can be a source of inspiration for a law of the commons. Both movements, as alternatives to the market and state, question the Western concept of individual agency. By attributing rights and responsibilities to collective persons, the commons movement can take inspiration from environmental law and the law applied to artificial intelligence, both of which have succeeded in surpassing the notion of individual person.

Melanie Dulong de Rosnay, PhD in law (University Paris 2, 2007) is an associate research professor (permanent researcher since 2010) at the French National Centre for Scientific Research (CNRS). Head of the Information and Commons Research Group at the Institute for Communication Sciences of CNRS/Paris Sorbonne/UPMC, she is also a visiting fellow at the London School of Economics and Political Science Department of Media and Communications.
