

## Material Flows Japan 1878 to 2005

---

The metabolic transition in Japan: A material flow account for the period 1878 to 2005: Online MFA 1878-2005 dataset.

This dataset contains data on extraction, imports, exports and apparent consumption by main material groups and primary energy by main energy types for the period 1878 to 2005. Data are presented as global totals (1000t), per capita of global population (t/cap/yr) and per unit of global GDP (t/\$ 1990 intl. \$/yr).
