

The metabolic transition of a planned economy: Material flows in the USSR and the Russian Federation 1900 to 2010: Online MFA 1900-2010 dataset.

This dataset contains data on extraction, imports, exports and apparent consumption by main material groups for the USSR, the Russian Federation and the Former Soviet Union for the period 1900 to 2010 as well as data for the international comparison of socio-metabolic indicators. Data are presented as global totals (1000t), per capita of global population (t/cap/yr) and per unit of global GDP (t/\$ 1990 intl. \$/yr).

Quote data as: Krausmann, F., Gaugl, B., West, J., Schandl, H., 2016. The metabolic transition of a planned economy: Material flows in the USSR and the Russian Federation 1900 to 2010.
