

NWNR300885 Biochemistry of trace elements (3 ECTS*)

Lecturer: Stefan Hofbauer (<https://short.boku.ac.at/HemeBiosynthesis>)

Kick-Off:

Thursday, October 15th 2026
2:30 p.m.

Where: SR Room 31

weekly; every Thursday from 2:30 p.m. to 4 p.m.

Content:

- basics of complex chemistry
- biochemistry of trace elements (focus on iron and molybdenum)

Didactic Concept:

to be decided by everybody who is showing up at the **Kick-Off**

possibilities:

- regular lecture
- flipped classroom
- publication-based discussions to understand protein/enzyme mechanisms with trace elements involved
- whatever **you** suggest (and that is feasible)

mode of **examination** will be discussed and decided at the Kick-Off
