

# ***Dissertanten und Masterseminar Department für Chemie - Sommersemester 2020***

**25. Juni 2020, 9:00 Uhr**

Online ZOOM

**9:00 Uhr Max Feuerstein:** "Advanced data acquisition strategies for metabolomics using ion mobility-QTOFMS" (PhD progress report)

**9:25 Uhr Hendri Wasito:** "Alternating ion source fragmentation on liquid chromatography time-of-flight mass spectrometry for metabolomics studies" (PhD progress report)

**9:50 Uhr Kaan Kutlucinar:** "Development and application of non-targeted HPLC-TOFMS methods for analysis of natural water" (PhD)

**10:15 Uhr Alexander Zollner:** "Beyond chemically defined - Analysis of Modern Cell CultureMedia" (Master, final presentation)

**10:35 Uhr Samira Galler:** "Fractionation of lignosulfonates" (Master)

**10:55 Uhr Stefan Wagner:** "Two-dimensional, quantitative solute imaging of micrometer-level magnesium metal degradation dynamics." (PhD)
