

# Science Lunch

## 2021

### Aquatic ecosystem science and application

In the six-part seminar series, researchers and practitioners provide insights into current projects in aquatic ecosystem sciences.

We invite everybody who is interested to follow the presentations and join the discussions!

**Time:** 12:00-13:00

April 21st

**Life in the Antarctic between stresses and opportunities**

Julian Gutt (Alfred Wegener Institute, Germany)

April 28th

**Microplastics - Stressors on caddisflies & Plasticrusts in the Mediterranean Sea**

Sonja Ehlers (University of Koblenz, Germany)

May 5th

**Integration of land use and climate change risks in the Programmes of Measures of River Basin Plans**

Teresa Fidélis (University of Aveiro, Portugal)

May 12th

**Rivers 2.0 - Transforming rivers into digital landscapes using UAS**

Christian Haas (I Am Hydro GmbH, Germany)

May 26th

**Methodological development for the evaluation of restoration measures by cultural ecosystem services of rehabilitated rivers**

Renate Becsi, Daniel Hayes, Susanne Muhar (BOKU Vienna, Austria)

June 9th

**Save migratory fish by removing dams!**

Herman Wanningen (World Fish migration foundation, The Netherlands)
