

***Amphibians and reptiles in the Anthropocene –
aspects of nature conservation***

Minisymposium on 18 April 2023

ILWA-SR 27, Ilse-Wallentin-Haus Peter-Jordan-Str. 82, 1. Untergeschoß

Zoom link

<https://bokuvienna.zoom.us/j/98782334664?pwd=dThYNVB2MGticXIYTVJXZYmF1MXpwZz09>

10:00-11:00 Uhr

"Herpetological research and conservation of the Vienna Zoo: success and challenges"

Dr. Doris Preininger

Wissenschaftliche Mitarbeiterin | Science & Research

Schönbrunner Tiergarten GmbH

11:00-12:00 Uhr

"Hybridization and Conservation. What to protect, and why?"

Univ. Doz. Dr. Günter Gollmann

Department of Evolutionary Biology

University of Vienna

ILWA-SR 29, Ilse-Wallentin-Haus Peter-Jordan-Str. 82, Erdgeschoß

Zoom link

<https://bokuvienna.zoom.us/j/98782334664?pwd=dThYNVB2MGticXIYTVJXZYmF1MXpwZz09>

14:00-15:00 Uhr

"Anthropogenic activities threaten the 'jewels' of the rainforest"

Bibiana Rojas, PhD

Assistant Professor of Global Change Biology, Department of Interdisciplinary Life Sciences

Konrad Lorenz Institute of Ethology, University of Veterinary Medicine

15:00-16:00 Uhr

"Harnessing the microbiome for species conservation"

Dr. Magdalena Meyer

Ulm University

Institute of Evolutionary Ecology and Conservation Genomics

16:00 – 17:00 Uhr

Final discussion
