## THIERRY KANDJEE II

Thierry Kandjee, born 1973 in Tananarive (Madagascar), graduated as a landscape architect from ENSP Versailles in 1999. He established TAKTYK [landscape + urbanism] in 2005 with the architect urbanist Sebastien Penfornis. In the intersection of landscape, infrastructure and the city, the office operates in Brussels and Paris as a transdisciplinary practice that engages in city making through projects, design studio, editing and art curation.

Thierry Kandjee investigates the notion of "Skeletons of/for robust landscapes" as the construction of physical, instrumental and strategic open space frameworks, acting as a conductor, curator and mediator of complex transformation processes.

## TAKTYK II

Taktyk is a transnational multidisciplinary practice. Our field of operation is the metropolitan condition, from diffuse to compact urbanity. Projects range from the design of public space, city campus strategic plan, urban renewal, post-industrial/agricultural scenarios to prospective studies in Europe and beyond. Operating between site and strategy, process and implementation, the office investigates the notion of operative tactics, through the design of adaptative toolbox and frameworks. The office has been awarded the „Nouveaux albums paysagistes 2005-2006“ prize by the French Ministry of Culture, the young urban planners prize 2010 by the French Ministry of ecology, housing energy and transport and the TOPOS landscape award 2012.
