Dipl. Geogr. Ingrid Heineking
Dipl.-Ing. Johanna Niescken

The gender_archland...

- was founded in 2008 as an initiative at the Leibniz University Hannover School of Architecture and Landscape Science
- Bringing together GenderCompetence in the fields of spatial / environmental planning and sustainable development
- Establishing gender approaches in planning sciences
- is active within the three fields:
research education transfer

Current activities

Scientific series
Contributions to Planning and Architecture Sociology

- Vol. 1:** At second glance.
Urban housing projects of women (2004)
Vol. 5: Women getting into.
Quality criteria in urban planning (2007)

Vol. 6: Gender Building-
Qualities in social space
of public building (2009)

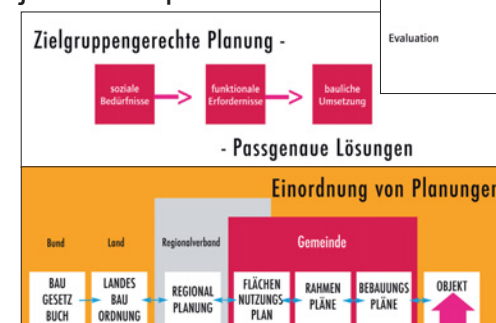

Documentation of 7 Gender Assessments of public building projects concerning government authorities, healthcare service, public-law foundation, education, transportation and public space. With projects from Austria (1), Germany (3), Liechtenstein (1) and Switzerland (2).

Gender Compass Planning

Development of a compass as a supportive instrument for the planning administration of Freiburg i.Br. as well as for external planning offices.

Bringing the gender perspective into projects and processes:

Mehrwert durch Qualitätssicherung	
Produkte	Wie sehen die Raum- und Siedlungsstrukturen aus, wie sind sie gestaltet? Sind Frauen und Männer unterschiedlich betroffen?
Prozesse	Wie sind die Planungs- und Entscheidungsprozesse gestaltet? Sind Frauen und Männer gleichermaßen beteiligt?
Kriterien	
Partizipation BürgerInnen	Frühzeitige prozessorientierte Beteiligung, z.B. durch runde Tische und kooperative Verfahren, Befragungen etc. (siehe Kasten Partizipation)
Beteiligung Externe ExpertInnen	GenderExpertise bei Planungen, Gutachten, Forschungsprojekten, Angebotsgestaltung und Wettbewerbsausschreibungen
Besetzung von Gremien	Paritätische Besetzung von Fachpreisgerichten und Juries
Strukturen	Wie sind die institutionellen und organisatorischen Rahmenbedingungen?
Kriterien	
Datenbasis	Geschlechterdifferenzierte Statistiken, Nutzungsanalysen und Befragungen
Gender Mainstreaming	Implementierung in die Verwaltung
Gender Trainings	Qualifikation, Fort- und Weiterbildung
Gender Budgeting	Geschlechtersensibler Haushalt
Personalentwicklung	Frauen und Männer in Führungspositionen, paritätische Teams, fachübergreifende Arbeits- und Projektgruppen
Evaluation	Qualitätssicherung und Controlling, Monitoring, Weiterentwicklung

From land use planning, master local plans through to the planning of single buildings.

Women as pioneers in nature conservancy and education

Margarete Ida Boie (1880-1946)
Helene Varges (1877-1946)

Before 1909 it was impossible for women to study sciences (to start scientific studies) in Prussia. Therefore it is just little known about the work of women in landscape architecture. Like many others these women were operating in the field of nature conservancy rather beyond governmental structures. The pilot study is supposed to show gaps in one's knowledge, to form gender related questions of inquisition and to give contentual/ methodic recommendations for further research.

Female migrants as founders of a new business

project by Dr.-Ing. Ruth May

The study is analyzing the requirements of female migrants of urban space. Those requirements have not gotten enough attention in room related research so far.

Therefore the study deals with the founders of a new business with migration background, who stand up socially and economically due to the use of urban space.

Members and Networking

The 35 members of the forum are not only dependants of the university, but they are from administrative planning institutions of the nation and foreign countries as well.

Through the research forum is taking place regularly, the exchange between research and practical experience and the interdisciplinary collaboration is supposed to be encouraged.
