BREST METROPOLE OCEANE
LES 8 COMMUNES

With GDUS

- Bmo is ready to study and test few proposals made by GDUS, according with the local team in Sociological Research of University of west Brittany.
- This cooperation bounding Research and Policy, aims to realize good practices in different fields (town planning, housing, traffic, etc....), whose dissemination should be tested.
- Actions will be chosen among pilots selected and built by the European Research teams. They will be adapted and adjusted on a local level during the experimentation by the searchers, collectivity officials and elected members.
- It includes the participation of 4 searchers and implies the Vice-president to Equality Delegation as well as officials, directly involved in the experimentations.

Brest - Situated at the westernmost edge of Europe facing out to the open Atlantic

- Brest métropole océane : 213 545 inhabitants
