

Meeting of the SEM Working Group

26 March to 27 March 2020
Vienna, Austria

University of Natural Resources and Life Sciences Vienna,
Institute for Transport Studies

1. Conference Venue

**Seminarraum 06
Peter Jordan–St. 82
Schwackhöferhaus**

2. Contact information

Local organizer:

Reinhard Hössinger, Mag. Dr.
r.hoessinger@boku.ac.at
Phone: +43 1 47654-85631

Institute for Transport Studies
Peter Jordan-St. 82, 1190 Vienna

Co-organizers:

Juliane Stark, Ass.Prof. Dipl.-Ing. Dr.
juliane.stark@boku.ac.at
+43 1 47654-85621

Maria Juschten, MSc.
maria.juschten@boku.ac.at
+43 1 47654-85623

Institute for Transport Studies
Peter Jordan-St. 82, 1190 Vienna

Support-office:

Michaela Stern
michaela.stern@boku.ac.at
+43 1 47654-85619

Institute for Transport Studies
Peter Jordan-St. 82, 1190 Vienna

3. Call for papers

Exchange and discussion of methodological problems and solutions in structural equation modeling and related fields are the main goal of the meeting. Research related to practical implementations (e.g. inventory studies) and connections between SEM and related fields of modelling (e.g. choice modelling, system dynamics) are explicitly welcome.

Both theoretical scientists and practical users with an interest in SEM are invited to participate and submit an abstract. Please send your abstract including title, keywords, and authors' information to sem2020@boku.ac.at by 25th November 2019. The main text should not exceed 200 words and may include tables and figures. The preferred file format is MS Word.

4. Timetable

The meeting will last two days. Talks will be at least 30 minutes including 10 to 15 minutes for discussion.

A detailed program and registration information will follow in autumn.

We are looking forward to meeting you in Vienna.

Kind regards,

Reinhard Hössinger, Juliane Stark, Maria Juschten and Michaela Stern
on behalf of the SEM Working Group
