

Animal Science Days 2017 - Workshop „**On-farm welfare assessment in dairy cattle**“

19.09.2017

This course aims at providing basic insights into on-farm welfare assessment in dairy cattle. It will be based on the protocols developed in the course of the Welfare Quality (www.welfarequalitynetwork.net) and Assurewel projects (www.assurewel.org). The 1-day workshop includes both classroom as well as on-farm training. It will be given by Prof. Christoph Winckler and Dr. Christine Leeb.

There are no fees (lunch and refreshments not included). The maximum number of participants is 15.

PROGRAM

09:00	Welcome
09:15	Introduction to animal welfare assessment
09:45	Classroom training of animal-based measures of dairy cattle welfare (based on the Welfare Quality and the Assurewel protocols)
10:30	Coffee break
11:00	Classroom training continued
12:15	Lunch
13:30	On-farm training (commercial farm) and inter-observer reliability testing
16:30	Concluding discussion
17:00	End
