Professional Experience

AUGUST-OCTOBER 1990	Postgraduate trainee at the Ernte-Verband ² . Literature research on teaching and consulting materials under supervision of Dr. Gerhard Plakolm.
NOV. 1990-OCT. 1991	For the Ernte-Verband: I organized meetings of consultants, reviewed and updated the library and compiled a literature file for the library. I carried out a survey of farmers, consultants and academic experts to identify unsolved problems in organic farming practice in need of research. I assisted in setting up the organic farming research initiative (Forschungsinitiative Biologischer Landbau, FBL), a network involving the BOKU, the Boltzmann Institute for Organic Farming, and the Federal Institute for Agricultural Biology Bundesamt f. Agrarbiologie as well as consultants and farmers.
NOV. 1991-MAY 1994	I worked as a consultant on agroecology to indigenous small farmers in Chiapas, Mexico, sponsored by the Institut für Internationale Zusammenarbeit (now: Horizonte 3000), Vienna and Fomento Cultural y Educativo, Mexico City. I carried out ecological problem analyses, organized agroecology courses, field days, excursions and work placements. I led participatory processes to work out guidelines for green manuring, companion planting, reforestation, and fruit growing, and compiled teaching and advisory materials.
JUNE 1994-JULY 1994	Edited a consolidated version of Council Regulation (EEC) 2092/91 on organic farming for the Ministry of Agriculture and Forestry, as assistant to the visiting chair of organic farming at the BOKU.
SEPT. 1994-APRIL 1995	Scientific assistant to the visiting chair of organic farming; worked on a project to create guidelines for research policy: "Knowledge gaps, major topics and methodological criteria for research on organic farming".
JANUARY-JUNE 1995	Agricultural work experience: at a biodynamic dairy sheep farm (3 days per week); shed work, milking, cheesemaking, marketing.
Since AUGUST 1995	Research assistant at the Division of Organic Farming (IfÖL) ³ at the BOKU: graduated with doctorate in June 1999. Contract was valid until August 2005.
DECEMBER 2003	Habilitation at the BOKU; permanent appointment as associate professor of organic farming.
JANUARY 2004	Head of Working Group: Knowledge Systems and Innovations (ongoing)
JAN. 2010 -DEC. 2012	Head of Department: Department of Sustainable Agricultural Systems
JAN. 2013 ongoing	Deputy Head of Department: Department of Sustainable Agricultural Systems Deputy Head of the Division of organic Farming Member of BOKU's "Quality Board" Member of BOKU's "Sustainability Board" Member of BOKU's "Plattform Satoyama" Partner of BOKU's "Centre for Development Research"

Introduction and Thematic Overview on the publications & teaching

I studied, and now I work at the University of Natural Resources and Life Sciences Vienna, called in German University of “*Bodenkultur*”. The original German name has connotations of soil or land (*Boden*), as well as cultivation and human culture (*Kultur*), and expresses one of the university’s mission to explore the interactions of natural and cultural systems. Relationships between nature and culture have been my own personal interest ever since my first research trip to the farmers of the Andes for my master’s thesis in 1987 and 1988. Between 1992 and 1994 this focus was reinforced during an extended work period as technical consultant in the lowlands of Chiapas (Mexico), living in a Ch’ol Maya, and later during regular spells of work on farms in Austria. Although it is obvious that farming involves a close interdependence of nature and culture, and it has also become a commonplace to say that research should be systemic, holistic or inter- and transdisciplinary, the approach that we need to properly understand this interdependence cannot

be invented overnight. My own thinking as a scientist, and the methodological toolkit used to collect and analyze data, and the awareness of the issues on the part of other scientific actors (research colleagues, referees, grant givers) have gone through a significant development process. The diagram below is meant to give an overview of my thinking and activities. You can see how the focus of my publications has developed over the years. The challenge I am working on at present is to not only describe but be able to analyze selected components of this “cultural-ecological” or “social-ecological” system, that is, to be able to reliably characterize trends, potentials, possible points of intervention and intervening factors for ensuring a sustainable and resilient management of natural resources. I do that from an ethnosciences point of view and with a focus on certified organic farming or “organic by default” (agroecological) farming.

German (933.008) With various guest teachers. Since 2010.
- **Local knowledge and ethnobiology in organic farming – Introduction**
English (933.051). Since 2004. Since 2009 with Christine Van Der Stege & Christoph Schunko.
- **Local knowledge and ethnobiology in organic farming – methods seminar**
English (933.051) Since 2004. With R. Puri from 2005 -2011; From 2013 onwards with C. Van Der Stege & C. Schunko.
- **Ethnobotany Research and Applications**
English (933016) Since 2015 together with Elisabeth Kuhn & Heidemarie Pirker.
- **Ethnobotany-Introduction**
English (933.015) Since 2015 together with Elisabeth Kuhn & Heidemarie Pirker.
- **Agroecology, Cultural Ecology & Ethnoecology - Interdisciplinary discourse in natural resource management**
English (933.329) since 2016. Together with with Christoph Schunko.
- **Global, Private and Participatory Organic Guarantee Systems**
English (933.320).
- **Bachelor Seminar Organic Farming**
German. Since 2012 (933.104)

Teaching Activities 2001 - 2015

- Selected aspects of agro-, ethno- and cultural ecology (375.014, from 2004: 933.315) with various colleagues
2002: Farmers' experiments
2003: Local knowledge of organic farmers
2004: Maya resistance, subsistence and organic farming
2005: Composite disciplines
2006: Biocultural diversity
2007: Organic farmers' experiments
2008: Natural resources and their use in Latin America
2009- 2015: Various aspects of organic farming and traditional knowledge
- Project on organic farming (732.104). With J. Friedel, T. Lindenthal and G. Pietsch in SS 2005, 2006, 2007, 2008, alone from 2009-2012.
- Contemporary issues in ethnobotany and biocultural diversity research (933.054) with Gary Martin (SS2008)
- Facilitating organic farming in tropical and subtropical regions (375.034), with guest lecturers B. Freyer and M. Hauser as in SS 2001, M. Hauser in SS 2002
- Introduction to organic farming in the tropics and subtropics (375.021) with guest lecturers B. Freyer und M. Hauser (SS 2001, SS 2002)
- Natural resources and their use in Latin America (933.059), with Georg Grünberg (SS 2008)
- Organic farming (933.101), with B. Freyer, W. Zollitsch, C. Winckler, R. Baumung (SS2008)
- Organic farming in tropical and subtropical regions (375.035), with B. Freyer and M. Hauser (SS 2001, SS 2002)
- Participatory methods and tools for mountain forestry applications (732.317), with M. Hauser
- Guidelines. Certification and accreditation in organic farming (375.027, bzw. ab 2004: 933.103) alone in 2000-2007; with Paul Axmann in 2008.
- Safety and quality of organic foods (933.303), with B. Freyer, P. Axmann (SS 2008, SS 2009)
- Women and plants: In-situ conservation of biocultural diversity in tropical home gardens (933.055), with Patricia Howard (SS 2008)
- Coordination of the module "Nature" of the university course of the Austrian Latin America Institute and the University of Vienna in SS 2008, with the title "Natural resources and their use in Latin America", with Dr. Georg Grünberg.

Teaching Activities under the "Old Course Structure" before 2001

- Agroecology (320.815), with B. Kromp, H. Steiner (SS 1997/1998; SS 1998/1999)

- Aspects of an ecologically and socially sustainable agriculture in developing countries (375.017) alone in SS 97, with M. Hauser and guest lecturers in SS 1999 and 2000.
Topics 1999: Participatory learning and community deliberation for local sustainable development (J. Pretty, Centre for Environment and Society, Univ. of Essex, UK); Participatory extension and communication: Session I: Participatory extension (Janice Jiggins, Professor of Human Ecology, University of Uppsala, Sweden), Session II: Participatory monitoring and evaluation (Irene Guijt, PM&E consultant and research associate, Wageningen Agricultural University, the Netherlands)
Topics 2000: Traditional agriculture and sustainable rural development in the Andes: from transfer of technology to intercultural dialogue (S. Rist, Centre for Development and Environment, Institute of Geography, University of Berne). The value of indigenous knowledge for sustainable development and the conservation of biodiversity: Case studies from Brazil (D. Posey, Programme for Traditional Resource Rights, The Oxford Centre for Environment, Ethics & Society). Tropical agroecology – implications for men and biosphere: the value of indigenous ecological knowledge for a sustainable development: Case studies from the Andean countries (M. Altieri, Center for Biological Control, Department of Environmental Science, Policy and Management, University of California/Berkeley)
- Selected examples of sustainable land use systems and agro-ecological strategies in tropical regions (717.066), SS 1997 and SS 1999)
- Selected aspects of agro-, ethno-, and cultural ecology (2000: examples from Latin America) (375.014), with guest lecturers (SS 2000)
- Selected aspects of organic farming (375.671), with E. Fromm, T. Lindenthal & J. Heß (WS 1996/1997; WS 1997/1998); B. Freyer & R. Kratochvil (WS 1998/1999)
- Selected aspects of organic farming (375.682) with E. Fromm, T. Lindenthal & J. Heß (WS 1996/1997)
- Farm business analysis and conversion planning (330.693), with J. Heß & E. Fromm (SS 1996, SS 1997)
- Pre-work-placement-seminar on organic farming(375.005). In WS 1996/1997 with E. Fromm, T. Lindenthal & J. Heß; in WS 1997/1998 and 1998/1999 with T. Lindenthal
- Laws and regulations for organic farming (375.000). In WS 1996/1997 and 1997/1998 with J. Heß; alone in 1998/1999, 1999/2000
- Special topics in organic farming (330.704), with J. Heß (SS 1996)
- Also: coordination of the module “Nature” of the university course of the Austrian Latin America Institute and the University of Vienna in SS 2000, with the title “Natural resources and their use in Latin America”.
