# Organic, sustainable, happy?

Environmentally sound, socially acceptable, economically feasible - organic agriculture promises much, but can it guarantee food supply? Mitigate climate change? And does it add to a nation's happiness?

We discuss with **Sonam Tashi** (Royal University of Bhutan) and **Richard Onwonga** (University of Nairobi).

**Monday, 29th May 2017, 18:00 - 19:30**

Baracke 5, first floor, seminar room B (Hörsaal B)  
Borkowskigasse 4, 1190 Vienna

Free admission - please register:
