

PhD position in Enzyme Engineering of Solid Lignins

at BOKU Vienna, Austria

The Institute of Environmental Biotechnology of BOKU University located in Tulln, Austria, is looking for a talented and motivated person, who is eager to perform a PhD in the field of enzyme engineering in the framework of the European MSCA Joint Doctoral “Better BioBased Polymers” Network. The project will be co-supervised by Prof. Georg Gübitz (BOKU University, Vienna) and Ass.-Prof. Dr. Victoria Rigual (UCM, Madrid) as a double degree PhD project with a 9-months secondment to UCM)

Eligible applicants

- should have a master's degree (or equivalent) in biotechnology or a related field
- should be fluent in English,
- must not have resided or worked/studied in Austria for more than 12 months within the 3 years prior to the starting date

The expected starting date for the project is **March 1st, 2026**, with a total duration of **3 years**. For the application and more details on the project contact Georg Gübitz (agri-ubio-jobs@boku.ac.at).

DC02: Engineering of Enzymes for Coupling Reactions of Solid Lignins
