

Newsletter 3 “BOKUlearn 4.1“

Dear Colleagues,

Preparations for the upcoming **BOKUlearn update** are in full swing. As already communicated, this will take place on **13.09. and 14.09.2023**.

On these days, **the learning platform learn.boku.ac.at** will therefore not be accessible.

Maintenance work is also necessary on **the demo site (sandbox)**, which is why it cannot be accessed **on 25.08.2023 from 10:00 am**.

The reason for this is a planned switch to the authentication method Single-Sign-On, which is also known from other BOKU services.

If you have a **BOKU account**, we ask you to log in after the maintenance date using the button "**BOKU SSO**". Only users with a manual BOKUlearn account (username starts with m\$_) can log in using the input fields below the heading "Manual Login...".

If you have any questions or comments, please contact us at e-learning@boku.ac.at.
