DEPARTMENT OF AGRICULTURE
„WITH PASSION FOR LAND AND FOOD“

INTERNATIONAL CONFERENCE VALUE CHAIN MANAGEMENT IN TEACHING TRIEDSORDF | JULY 8 - 9, 2016

VALUE CHAIN MANAGEMENT IN TEACHING

Education may cover a variety of subjects. E.g. at HSWT students can choose from four Bachelor courses of the Department of Agriculture: Agricultural Engineering, Agriculture, Food Management and Nutrition and Supply Management. It is our aim to provide students with the opportunity to collaborate in teams and deal with topics along the food chain - from production up to nutrition. There are different approaches how to cope with this task. In the conference the universities have the possibility to present their approaches and to exchange ideas about effective teaching and knowledge transfer.

PROGRAMME

TIME

Fri / 8.7.

Morning **ARRIVAL OF PARTICIPANTS**
