

Invitation to the TWE+ Teaching Mobility Pilot

“ Impact Entrepreneurship and Sustainable Innovation Climate challenges : A contribution to change the world !”

Dates: 02/03/2020-06/03/2020

Place: Institut Polytechnique UniLaSalle, Beauvais, FRANCE

Contact person: Ms Kimberley COUCHY

kimberley.couchy@unilasalle.fr, +33 3 44 06 76 19

Language: English

Application deadline: 12 December 2019

Accommodation: self arranged– please ask whether there are still free places on our campus residence

About the project:

The project consortium consisting of Eötvös Loránd University, UniLaSalle, University of Alcalá, the Network of Universities from the Capitals of Europe (UNICA) and the European University Foundation (EUF) has identified that staff mobility for teaching is often not of sufficient quality and not easily accessible for (especially junior) teaching staff.

For this purpose, the Teach with Erasmus+ project (TWE+) is trying to tackle the accessibility to teaching mobility, as well as to set a framework that allows Higher Education Institutions to measure the quality of teaching mobility. Furthermore, the consortium aims to collect a catalogue of innovative pedagogical tools & methods to be made available to the Higher Education sector.

At the centre of the project outcomes will be the Erasmus+ Teaching Mobility Platform (ETMP), a Marketplace where institutions/teachers can offer and find teaching opportunities. The ETMP will be a logical continuation of www.staffmobility.eu, the current platform providing a marketplace for staff mobility for training.

The present teaching mobility pilot aims to select participants for testing the Marketplace, the methodology database and the quality measurement tool in real life situations. Therefore, selected participants will be asked to test and provide feedback on these instruments.

For further information on the project, please visit the www.teachwitherasmus.eu website.

Profile of the participants:

We are looking for **Higher Education teaching staff** from the following fields: (impact) entrepreneurship, innovation management, sustainable innovation. Any experience related to climate concerns will be carefully looked at. For the specific course offer and schedule, see the [preliminary programme](#).

Application procedure: please complete the online Application Form at https://docs.google.com/forms/d/e/1FAIpQLSc0XI-lujlM6xhS0m1QaEukA_K0GYTS2Y-Cbjj-BoNYqyZq2w/viewform?usp=sf_link before the indicated deadline.

Results will be announced by email on the 16-17 December 2019.

Costs: there is no participation fee. Participants have to cover the expenses from other resources (e.g. Erasmus+ KA103). At the end of the mobility, participants will receive a Certificate on the completed activity of 8 hours. For questions regarding funding options please contact your International Office.

Preliminary programme
