

CV/6/2020

Vienna, 20<sup>th</sup> April 2020.

Mrs.  
Barbara Weitgruber  
Director General for Scientific Research and International Relations  
Ministry of Education and Science  
Vienna. -

Dear Madame,

I have the pleasure to inform that the Peruvian National Council for Science, Technology and Innovation (CONCYTEC) had organized a Call for Proposals titled "Special Projects: Response to Covid-19" that took place on march 31<sup>st</sup>.

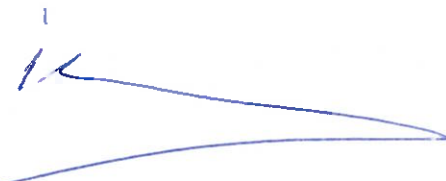

These Special Projects have been provided with USD 1.5 million that will be oriented to support research investigation to combat the Covid-19 pandemic in five thematic areas: Development, adaptation and/or validation of detection systems (diagnosis); Tele-health, mobile health, digital epidemiological surveillance systems; Technological developments and innovation; Treatment (drugs, vaccines) and Epidemiological and social studies.

In order to achieve these goals, CONCYTEC is focused in finding partners that can be interested in the implementation of the selected projects. Please find attached herewith the list of projects.

In this regard, we will kindly request to forward this information to Austrian institutions, universities and other entities related with Scientific Research.

Sincerely yours,

  
**Eric Anderson Machado**
