FOR UNIVERSITY TEACHERS

Teacher-scholars from around Europe will gather for this one-day conference in Freiburg, Germany to launch the CREATES toolkit of classroom techniques.

CREATES warmly invites attendants of all levels of teaching expertise to celebrate the launch of the online toolkit. Seven engaging techniques will be described in short informational presentations. At an 'information market', all participants will have the option to share their own teaching project or technique and exchange with like-minded practitioners from different fields.

More information and registration (deadline 28. February) available on the website:
