

EPICUR at BOKU is looking for internship positions in sustainable (start-up) companies for its students (start date: June 2021)

EPICUR is looking for internships in the corporate sector for BA and MA students at the University of Natural Resources and Life Sciences, Vienna and its seven excellent European partner universities. As part of the EU- and BMBWF/OeAD-funded innovative educational project "European Universities", diverse and multilingual students from all EPICUR universities are to be given the opportunity to complete 3 to 6-month research internships in Austria.

The internship positions can be allocated for the period June 2021 to October 2021.

You can find out more about our partner universities in Germany, France, the Netherlands, Poland and Greece on our website (boku.ac.at/epicur).

Benefits and objectives

Entrepreneurship and regional networking are central concerns of EPICUR. Due to their participation in current and complex company projects, EPICUR students receive new knowledge, hard skills and soft skills for their later career entry. In cooperation with BOKU, the networking between universities and sustainable, future-oriented companies and start-ups is to be strengthened at all levels.

- Practical experience
- Developing an entrepreneurial mindset
- Experience abroad
- Improvement of language skills
- Professionalism, project management, soft skills, teamwork

Requirements for private enterprises

- The topics of the research projects should be related to sustainability, mobility, migration and identity and / or public health.
- Your institution has experience with international students, e.g. with supervision.
- Your enterprise is interested and open to intercultural diversity.
- Ideally, the interns can be provided with financial appreciation in the form of pocket money.
- The internship should last at least 3 months and a maximum of 6 months.
- Due to the current COVID-19 situation, there is also the possibility of a hybrid internship, which consists of on-site presence and teleworking.

EPICUR sees itself as an educational project with a focus on excellence through inclusion and diversity. For us, this also includes multilingualism. Due to the internationality of our students, French, Polish, Greek and Dutch are the popular languages alongside German and English.

We therefore particularly invite enterprises with similar interests and internationality to apply!

What advantages do you have as a private enterprise?

- Motivated and potential future employees from the EPICUR regions
- Increase the level of awareness of your enterprise at European level, within the EPICUR network and at BOKU
- Additional media work

Your participation helps EPICUR to be successful, strengthens the European higher education area and promotes scientific innovation at EU- level!

Contact

If you would like to be part of the EPICUR network, we ask for your feedback, stating the number of internship positions, a description of the content, the planned period for the year 2021 and the language and technical requirements.
