

I Blended Intensive Program

2023

What is this programm about?

Short, intensive programmes that use innovative ways of learning and teaching, including the use of online cooperation.

What do I gain?

- Participation in a BIPs Erasmus Action project
- Engaging International research groups from Vienna and Italy
- Extending your international network contacts
- Participating in an **International Workshop in Granada**
- Engaging different activities and visiting Biotech companies
- Academic recognition of 3 ECTS

What should I do?

- To apply for the next call of BIPs program-Erasmus call
- To select a topic to be enrolled during all the academic year
- To work with your mentor and colleagues in the topic (on line= 1 meeting per month)
- To prepare a short presentation with your colleagues and
- To expose your main results on site (Granada, April 2023)

Different activities will be
organized from April 17th to 21th 2023

Organization

Máster in
Biotechnology
UGR
