

# Soft Skills for Engineers

*Engineer your future with confidence*

## What Will I Learn?

- Build core skills in communication, teamwork, and leadership
- Apply creativity and critical thinking to real-world challenges

## How Does It Work?

- 3-hour sessions: seminar + class discussion
- Weekly participation + Report

**Wednesdays**  
**16:00 - 19:00**  
**10 ECTS**

## **Soft Skills for Engineers (SSE) – 10 ECTS**

---

### **Objectives**

SSE is designed to equip engineering students with essential professional competences. It focuses on developing key skills such as communication, problem-solving, leadership, teamwork, and critical thinking. Creativity, empathy, strategic planning, time management, and attention to detail are also emphasized. By the end of the course, students will be able to apply these skills effectively in professional contexts and confidently include them in their CVs.

### **Teaching Staff**

Guest lecturers of the UPV through academic and research exchange programs.

### **Methodology**

The SSE course consists of a series of guest lectures and workshops on selected topics. The sessions include presentations, practical exercises and open debate. The language of instruction is English.

### **Evaluation**

A comprehensive individual report is to be submitted and assessed after each individual session. Weekly attendance and active participation during class discussions will also be considered as part of the student evaluation.
