

## ERASMUS-EXPERIENCE REPORT

**Name: Jacob Hinge**

**Field of study: Master in Environmental Sciences. Soil, Water & Biodiversity (EnvEuro)**

**Host University: University of Copenhagen**

**Year of study: 2022/2023**

**Duration of stay: September 2022 to June 2023**

### **Publication of the report**

I consent to the publication of this experience report including the above data (field of study, host university, year of study, duration of stay) on the website of BOKU-International Relations for the purpose of sharing information related to the study visit, so that future interested outgoings can inform themselves about your experience at the host institution.

yes no

The consent is voluntary and can be withdrawn at any time without giving reasons with immediate future effect. Any withdrawal can be declared at any time by e-mail to [erasmus@boku.ac.at](mailto:erasmus@boku.ac.at).

**THE FOLLOWING ASPECTS WOULD BE INTERESTING FOR FUTURE OUTGOINGS:**

1. City, country and people + social integration:  
Copenhagen, Denmark. Great International study environment.
2. Accommodation:  
CPH Village. Great rooms to live in, small, simple and handy. They are a bit expensive and unfortunately come unfurnished but CPH Village has a great environment, with different things to the in the common areas. I can also recommend UMEUS from what I have heard. Both of these places are close to city center and also Amager fælled, which is a great place to go for walks and clearing up you mind before an exam.
3. Costs and expenses:  
Around DKK 5000,- for accommodation. Shopping groceries is on the expensive side. Compared to Austria it is a little more expensive but not that much, it also depends on what you buy. Bars are generally expensive, but you can find "cheap" options if you ask local people.
4. Arrival and departure (mean of transport):  
Plane
5. Description of host university, Course offer and attended courses (short description and possibly grading):  
Great offer of courses which all comes with a high educational level. Can be a bit harder to get good grades compared to BOKU.
6. "Study workload" (ECTS) per semester + grading:  
30 ECTS, workload was fitting. Sometimes you have a lot to do and can feel the struggle other times it is relaxing. Depending on what courses you take. I can recommend taking one course you think has a "low" workload together with one with a higher workload.
7. Academic counseling/support:  
Generally good
8. Tips and summary:  
Try to get a bike (Buddhabikes.dk is a good place to find a cheap bike), go to the beach and visit other towns and places.
