CEEPUS

Central European Exchange Programme for University Studies

How to find Networks Contact Details at host
University

We promote cooperation in the field of higher education in Central Europe.

CONTACT

Get in contact with our National CEEPUS offices

FIND A NETWORK

Find out whether your home institution participates in a CEEPUS network

APPLY

See whether you are eligible for a CEEPUS grant

Select the participating network at the university in which academic year you would like to go for a CEEPUS mobility

Find a network

Find out whether your institute at your home universities participates in a network by browsing our participating units. Get in contact with the network coordinator of the funded CEEPUS network to see whether a mobility application is possible within the network and for your desired guest university.

Or simply find out about our inspirational and diverse CEEPUS networks.

Modelling, Simulation and Computer-aided Design in Engineering and Management

Education, Engineering, Manufacturing and Construction, Social sciences, Business and Law

Program Description

BG-1103 is composed from 42 academic partner institutions (6 new) from the 16 CEEPUS countries and 5 companies. It is mainly event-oriented and teaching and studying activities are traditionally planned within events organized in partner institutions. Teaching and studying activities with CEEPUS grants are planned for International Weeks, where intensive study programs are organized, and ECTS credits and certificates are acquired. Long-term grants for doctoral students and CEEPUS Workshop on the Joint Doctoral program will be organized. Special CEEPUS Sessions at conferences will be supported. CEEPUS Flexible Courses will be organized at a Summer Academia. Meetings and cooperation with companies – silent partners are planned, and they will be realized through virtual meetings and integration in the Flexible courses. The Innovative e-management platform for the academic network IMA-NET will be updated and used for improving the network efficiency, and data obtained will be analyzed.
