Austrian Grading System

The Austrian grading system offers a range of five different grades (1 to 5):

- | | |
|--|---|
| 1 "Sehr gut" – "very good" | is the best possible grade and indicates outstanding performance with minor errors. |
| 2 "Gut" – "good" | is the next-highest grade and is given for performance that is above-average standard but with some errors. |
| 3 "Befriedigend" – "satisfactory" | indicates generally sound work with a number of notable errors. |
| 4 "Genügend" – "adequate" | is the lowest passing grade and is given if the standard has been met but with a significant number of shortcomings. |
| 5 "Nicht genügend" – "unsatisfactory" | is the lowest possible grade and the only failing grade (earned for less than 50% or sometimes 60% of the maximum achievable credit). |
