

Tropentag 2022: Call for papers - Can agroecological farming feed the world? Farmers' and Academia's view

Tropentag is an annual international conference on research in tropical and subtropical agriculture and rural development. Tropentag is interdisciplinary, science-based and development-oriented. It addresses issues of agriculture, forestry, agroforestry, fisheries, and overarching topics of natural resources management, environmental and economic sustainability, food security and nutrition in rural development and poverty alleviation worldwide. The conference brings together students, junior and senior scientists, development practitioners, and international research and funding organisations experts.
