bis 2.9. 2014 anzumelden und die elektronische Teilnahmebestätigung zur Veranstaltung mitzubringen – besten Dank!

Living well, within
the limits of our planet
7th Environment Action Programme

The **7th Environment Action Programme** (7th EAP) is the key policy document framing the environmental policy agenda of EU institutions and Member States:

Entitled „**Living well, within the limits of our planet**“, the 7th EAP will be guiding action up to and beyond 2020 to contribute to an innovative, circular, low carbon economy and enhanced societal resilience, and the adjoining transitions in the way we produce, consume and live.

Over the past months, the Environment Agency Austria (Umweltbundesamt) and other European Environmental Protection and Nature Conservation Agencies have been co-operating to jointly deliver recommendations to the new European Commission and the European Parliament on the key objectives of the 7th EAP.

To discuss and advance the current draft of these recommendations, **Umweltbundesamt, BMLFUW** and **WU's Competence Center for Sustainability**, are jointly inviting for a public debate and scientific advice from the Austrian stakeholder community and members of the [Balaton Group](#), a global network of researchers focussing on systems thinking in addressing sustainable development policies and action.

The **Draft Recommendations** will be presented by **Karl Kienzl**, Deputy Managing Director, Umweltbundesamt

Speakers invited to comment on these recommendations from an Austrian, European and global perspective and background include

- **Armon Rezai**, Vienna University of Economics and Business
- **Helga Kromp-Kolb**, Vienna Univ. of Natural Resources and Life Sciences
- **Stephanie Weis-Gerhard**, former Major of the City of Aachen and Manager of the „Aachener Stiftung Kathy Beys“
- **Junko Eda**hiro, Chief Executive, Japan for Sustainability (JFS)
- **Dennis Meadows**, Emeritus Professor of Systems Policy and Social Science Research, University of New Hampshire

Interventions will be followed by a panel discussion, moderated by **Elisabeth Freytag-Rigler**, Management Board Chairwoman, European Environment Agency
